Dear Messrs. Harris and Crapo:

Re: Notice of Intention to Commence Small Mining Activities, Fossil Lease #-26068
Project, S/027/012, Millard County, Utah.

Thank you for your letter, received by the Division July 26, 1989, concerning West Desert Collections' intent to commence small mining activities located in E1/2, SE1/4 of Section 2, T17S, R13W, Millard County, Utah. The letter does not satisfy the notice requirements of Rule R613-002 of the Utah Mined Land Reclamation Act of 1975, Title 40-8, Utah Code Annotated.

The following information is still required:

Rule R613-003-105, Project Location Map -

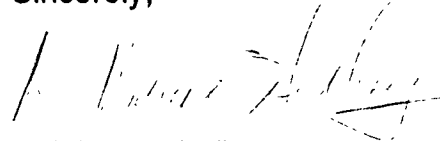

A topographic base map showing the location of the proposed small mining operation must be submitted. I have made you a copy of the appropriate USGS 7.5 minute topographic map and enclosed it with this letter. Please identify the location of the project disturbances on this map and return it to the Division. It is recommended that you also identify and label any existing/previous disturbances in the immediate vicinity, which are not related to or being used as part of your mining operation.

I have enclosed a copy of page 2 and 4 of your small mining application form and circled those items which are incomplete. On page 4, please indicate whether any variance requests are necessary for your operation.

S/027/012

The Division will suspend review and await your amended Notice of Intention. In reply, please refer to S/027/012. Thank you for your cooperation.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Wayne Hedberg", written over a horizontal line.
